HTML	SQL	RESTful API creation and calls
CSS/Sass	MongoDB	Git/Github
JavaScript/jQuery	Ruby/Sinatra/Rails	**Deployment**: Heroku, DigitalOcean
Backbone/React/Angular	Node/Express	**Testing**: Jasmine, RSpec

EXPERIENCE

General Assembly // *Web Development Immersive Student*   10/15 – 2/16

WDI is a 12-week, full-time program that starts with programming basics and graduates entry-level full-stack developers with experience in collaborative coding environments. Projects from this program include:

➢ Euchre: Built the card game Euchre in JavaScript, HTML/CSS.
➢ Travel App: Created a travel planning web application that also pulls information about countries from the WorldBank API.
➢ Chicago Crime: Pulls crime data from Chicago's API and displays crimes on a map and in a graph based on user inputs.
➢ NBA Trade Checker: Users can input potential trades between multiple NBA teams and check if the trade would succeed under the current NBA CBA.

Christopher David Interior Design // *Business Development Coordinator*   7/15 – 10/15

Managed prospective and sales leads for a high-end interior design firm including researching and contacting new companies and offices that may have use for an interior designer.

Kargo // *Business Development & Salesforce Intern*   5/13 – 8/13

Ensured Kargo's four person sales team ran as a well-oiled machine focused on results. Managed sales pipeline by entering and reporting weekly sales pipeline data on an ongoing basis, and ensured accurate year-over-year tracking capabilities.

EDUCATION

Iowa State University // *Bachelor of Science in Economics*   5/15

Illinois Math & Science Academy   2010

AWARDS

Eagle Scout Award // *Bronze, Gold and Silver Palms*
